What does PASS expect from me?

The selection committee for PASS is seeking students with a willingness and excitement to participate fully in all components of this program which include:

- The ability to attend courses three nights a week for both Fall and Spring semester
- The capacity to regularly attend class and PASS activities, being prepared, and willing to participate
- A strong sense of personal responsibility and desire to complete your educational goals

Where can I find out more?

What is the Program for Adult Student Success?

The Program for Adult Student Success or PASS is a WWCC initiative designed to meet the specific needs of Adult Learners. This program was founded on the basic premise that most adult students work and have numerous commitments beyond school; the services and expectations in PASS reflect this understanding. PASS is a one year sequence of courses designed to help students complete the first two semesters of their Associates Degree, along the way they will complete specific classes that will advance a range of academic skills and provide the information necessary to make informed choices about educational and career goals. The courses taken as part of PASS are fully accredited with the majority being transferable.

What are the benefits of PASS?

Students completing PASS will be able to transition into the degree program of their choice armed with the abilities to be successful in their chosen field.

PASS combines innovative curriculum, engaging instructors and extensive student support to provide each and every student a rewarding educational experience. As a busy adult with competing responsibilities, PASS provides a comprehensive and supportive learning environment in a face-to-face evening format. At the end of one year, students will have bolstered their math and critical thinking skills plus completed 14+ credit hours of college-level work.

WWCC wants each and every student to be successful and will provide you with the following resources throughout the program:

- A scholarship to help cover tuition and fees
- No cost childcare while you attend class
- Use of textbooks at no cost

How does PASS Work?

Students will attend class Tuesday, Wednesday, and Thursday evenings from 5:30-8:30pm both Fall and Spring semester.

Fall 2013 Curriculum
- Adult Student Success (1 credit)
- English 1010 (3 credits)
- Math 920/930 (4 credits)
- Computer Information Systems (3 credits)

Spring 2014 Curriculum
- Career Development and Advising (1 credit)
- English 1020 (3 credits)
- Math 930/1400 (4 credits)
- Comm 1010 (3 credits)

Admission to PASS requires each student to meet with a PASS advisor, complete the COMPASS test and attend an orientation session. Orientation sessions for the 2012-2013 cohort are June 10 @ 6pm and August 7th @ 6pm.

Our faculty works together to plan your courses. They listen to what you have to say, and coordinate assignments across classes so that you can study your subjects from different perspectives. For example, you may read a novel for an English class and be asked to write about its literary merits. But in a history class, your assignment may be to do a paper on what the novel says about life in the United States.
