

Cooperative Learning Idea

“Gallery Walk”

1. Post flip chart papers onto each wall in the classroom. Write a different question or word stimulus on each chart.
2. Divide the class into four smaller groups of four or five.
3. Station one group at each poster and provide them with several felt pens and ask them to brainstorm ideas that focus on each question or word stimulus.
4. Allow one minute at each station, then ask each group to rotate, making sure each groups gets to every poster, to the next station and continue to add their ideas to the list.
5. On the second rotation ask each group to put a star beside a good idea that was added to the list by another group.

Notes:
