Pediatric Advanced Life Support (PALS) Provider*

The goal of the Pediatric Advanced Life Support Course is to provide the student with information needed to recognize infants and children at risk for cardiopulmonary arrest, information and strategies needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest. For your success, we strongly encourage attending the Prepare for PALS class.

_Larry Macy_, NREMT-P has been in the medical field for over 17 years. In 2008 he took a position as a Safety Specialist for a construction company in the oil and gas Industry. He has presented at conferences in several states and is certified to train in a wide variety of courses.
